

wWinMain

```
graph LR; A[wWinMain] --> B[DirectXManager::Initialize]
```

A diagram showing a call from `wWinMain` to `DirectXManager::Initialize`. The `wWinMain` box is white with a black border, and the `DirectXManager::Initialize` box is gray with a black border. A blue arrow points from the right side of the `wWinMain` box to the left side of the `DirectXManager::Initialize` box.

DirectXManager::Initialize
